Front-End Developer

Rustam Rustamov

Hey my name is Rustam I'm new to programming and this is a totally new experience for me. It's been a year of the education proses at DAN IT Education. Learning the firs programming language is the awesome experience. I believe that this is beginning of a new journey. Fell free to check out my Git Hub . Looking forwards to start a commercial project. And hope my previous experience as a hairdresser helps me to build a new story on those soft skills that i received while i was working in salon, and of course the hard skills that i received at DAN iT are gonna be fundamental for long journey to Tech Lead.

Projects

1. https://github.com/Rustammio .... **[** HTML5, CSS3, JS **]**

Work experience

Hairdresser Various salons

February 2016 - up to now | Ukraine

- I was not only a hairdresser, i was also an educator.
- I love my current job but, i certainly feel that i have to move on.
- I used to work as a hairdresser for very long time, approximately 6 years.
- I want to start a totally new life in order to grow personally and professionally
- Check my GitHub to make sure that im not a totally stupid!

Education

Dessange academy

Hairdressing

September 2009 - June 2014 | Ukraine

"Dan It education" academy

Front end from zero, Full stack.

September 2021 - September 2022 | Ukraine
